	All	All Freshwater	All	various	var	various	various	All

NOTE: Where chronic maintenance problems with beaver dams exist WSDOT should contact the local Area Habitat Biologist (AHB) to discuss alternative solutions (i.e. beaver deceiver devices) that would avoid the need for repeated entry into the water.

This Hydraulic Project Approval (HPA) pertains only to the provisions of the Washington state Fish and Wildlife Code. It is the permittee's responsibility to apply for and obtain any additional authorization from other public agencies (local, state and/or federal) that may be necessary for this project.

See the current Memorandum of Understanding between WDFW and WSDOT dated June, 2002 for guidance on procedures for emergencies, maintenance, and dispute resolution.

PROVISIONS

- 1. TIMING LIMITATIONS:** The project may begin Immediately and shall be completed by **July 15, 2003**, provided:
 - Whenever possible, projects shall be conducted only during the time periods specified in the attachment "Allowable Work Windows for Beaver Dam Removal Projects".
 - At all times work shall be conducted during low stream flow conditions.
- 2. NOTIFICATION REQUIREMENT:** The permittee or contractor shall notify their local WDFW Enforcement detachment through the regional office (list attached) at least three working days prior to the start of removal

activities. Notification shall include the permittee's name, project location, starting date for work, and the control number for this Hydraulic Project Approval.

3. NOTIFICATION REQUIREMENT: By December 31, WSDOT shall submit to the WDFW WSDOT liaison, WDFW, Habitat Program, 600 Capitol Way N., Olympia, WA 98501-1091 a report of beaver dam removals during that year. This report shall include the waterbody name, WRIA number, section, range, township, latitude and longitude where work was performed and the type of work performed.
4. This HPA authorizes removal or modification of beaver dams and associated debris from within streams, rivers and WSDOT owned and maintained "manufactured drainage systems" provided:
 - The beaver dam has been in existence for one year or less.
 - The continued existence of the beaver dam poses an imminent threat , as defined in RCW 77.55.100(3)(b), to the integrity of WSDOT-owned and maintained bridges piers, culverts, or roads.
 - The beaver dam is located within WSDOT right of ways or other land owned or leased by WSDOT for performing maintenance activities.
5. Beaver dam removal requiring the use of heavy equipment, construction of a temporary bypass, and all other beaver dam removal shall require a separate HPA.
6. Large woody material embedded in the bank or streambed shall be left undisturbed and intact. Repositioned large woody material (6 feet or longer and 12 inches or greater in diameter) shall be placed or anchored to provide stable, functional fish habitat.
7. Smaller limb and bark debris associated with the large woody material shall be removed and disposed of so it will not re-enter the stream and shall not be available to beaver for rebuilding the dam.
8. Removal of beaver dam material or repositioning of large woody material shall be accomplished in a manner which minimizes the release of bed-load, logs, or debris downstream.
9. The use of equipment below the ordinary high water line shall be limited to hand held tools only. Handheld tools include chainsaws, peaveys, and vehicle mounted winches.
10. Cable attached to vehicles stationed on the road, shoulder, bridge or other existing improved surface maybe used to dislodge and remove debris from the stream channel.
11. Equipment crossings of the stream are not authorized by this HPA.
12. If necessary, erosion control methods shall be used to prevent silt-laden water from entering the stream. These may include, but are not limited to, straw bales, filter fabric, temporary sediment ponds, check dams of pea gravel-filled burlap bags or other material, and/or immediate mulching of exposed areas.
13. The beaver dam shall be removed gradually to provide for a slow release of impounded water.
14. Riparian vegetation shall not be removed or damaged except for that incidental to the removal of the beaver dam.

15. Extreme care shall be taken to ensure that no petroleum products, hydraulic fluid, sediments, sediment-laden water, or any other toxic or deleterious materials are allowed to enter or leach into the stream.
16. If at any time, as a result of project activities, fish are observed in distress, a fish kill occurs, or water quality problems develop (including equipment leaks or spills), operations shall cease and the Washington Department of Fish and Wildlife and Washington Department of Ecology shall be contacted immediately. Work shall not resume until further approval is given by the Washington Department of Fish and Wildlife.

GENERAL PROVISIONS

This Hydraulic Project Approval (HPA) pertains only to the provisions of the Fisheries Code (RCW 77.55 - formerly RCW 75.20). Additional authorization from other public agencies may be necessary for this project.

This HPA shall be available on the job site at all times and all its provisions followed by the permittee and operator(s) performing the work.

This HPA does not authorize trespass.

The person(s) to whom this HPA is issued may be held liable for any loss or damage to fish life or fish habitat which results from failure to comply with the provisions of this HPA.

Failure to comply with the provisions of this Hydraulic Project Approval could result in a civil penalty of up to one hundred dollars per day or a gross misdemeanor charge, possibly punishable by fine and/or imprisonment.

All HPAs issued pursuant to RCW 77.55.100 or 77.55.200 are subject to additional restrictions, conditions or revocation if the Department of Fish and Wildlife determines that new biological or physical information indicates the need for such

action. The permittee has the right pursuant to Chapter 34.04 RCW to appeal such decisions. All HPAs issued pursuant to RCW 77.55.110 may be modified by the Department of Fish and Wildlife due to changed conditions after consultation with the permittee: PROVIDED HOWEVER, that such modifications shall be subject to appeal to the Hydraulic Appeals Board established in RCW 77.55.170.

APPEALS - GENERAL INFORMATION

IF YOU WISH TO APPEAL A DENIAL OF OR CONDITIONS PROVIDED IN A HYDRAULIC PROJECT APPROVAL, THERE ARE INFORMAL AND FORMAL APPEAL PROCESSES AVAILABLE.

A. INFORMAL APPEALS (WAC 220-110-340) OF DEPARTMENT ACTIONS TAKEN PURSUANT TO RCW 77.55.100, 77.55.110, 77.55.140, 77.55.190, 77.55.200, and 77.55.290:

A person who is aggrieved or adversely affected by the following Department actions may request an informal review of:

- (A) The denial or issuance of a HPA, or the conditions or provisions made part of a HPA; or
- (B) An order imposing civil penalties.

It is recommended that an aggrieved party contact the Area Habitat Biologist and discuss the concerns. Most problems are resolved at this level, but if not, you may elevate your concerns to his/her supervisor. A request for an INFORMAL REVIEW shall be in WRITING to the Department of Fish and Wildlife, 600 Capitol Way North, Olympia, Washington 98501-1091 and shall be RECEIVED by the Department within 30-days of the denial or issuance of a HPA or receipt of an order imposing civil penalties. The 30-day time requirement may be stayed by the Department if negotiations are occurring between the aggrieved party and the Area Habitat Biologist and/or his/her supervisor. The Habitat Protection Services Division Manager or his/her designee shall conduct a review and recommend a decision to the Director or its designee. If you are not satisfied with the results of this informal appeal, a formal appeal may be filed.

B. FORMAL APPEALS (WAC 220-110-350) OF DEPARTMENT ACTIONS TAKEN PURSUANT TO RCW 77.55.100 OR 77.55.140:

A person who is aggrieved or adversely affected by the following Department actions may request an formal review of:

- (A) The denial or issuance of a HPA, or the conditions or provisions made part of a HPA;
- (B) An order imposing civil penalties; or
- (C) Any other "agency action" for which an adjudicative proceeding is required under the Administrative Procedure Act, Chapter 34.05 RCW.

A request for a FORMAL APPEAL shall be in WRITING to the Department of Fish and Wildlife, 600 Capitol Way North, Olympia, Washington 98501-1091, shall be plainly labeled as "REQUEST FOR FORMAL APPEAL" and shall be RECEIVED DURING OFFICE HOURS by the Department within 30-days of the Department action that is being challenged. The time period for requesting a formal appeal is suspended during consideration of a timely informal appeal. If there has been an informal appeal, the deadline for requesting a formal appeal shall be within 30-days of the date of the Department's written decision in response to the informal appeal.

C. FORMAL APPEALS OF DEPARTMENT ACTIONS TAKEN PURSUANT TO RCW 77.55.110, 77.55.200, 77.55.230, or 77.55.290:

A person who is aggrieved or adversely affected by the denial or issuance of a HPA, or the conditions or provisions made part of a HPA may request a formal appeal. The request for FORMAL APPEAL shall be in WRITING to the Hydraulic Appeals Board per WAC 259-04 at Environmental Hearings Office, 4224 Sixth Avenue SE, Building Two - Rowe Six, Lacey, Washington 98504; telephone 360/459-6327.

1. The General Season for a county applies to all streams within that county, unless a specific season is given for a listed stream in that county under Exceptions to the General Season. Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
2. The season for a listed Exception to the General Season applies to all its tributaries, unless a tributary of that stream is also listed with a separate season. Such tributaries are listed below the parent stream with an indent and a (-). Some streams flow through multiple counties. Check the listing for the county in which you propose to work to determine the open season for that stream.
3. Columbia and Snake River reservoirs are not considered lakes. Lake is defined in WAC 220-110-020(47) as any natural or impounded body of standing freshwater, except impoundments of the Columbia and Snake Rivers.
